**Subject:** Request for SMA-Specific Spreadsheets and Particular GIS Files

Kristine,

During your presentation to the PCI Group on Tuesday you offered to provide the LWG with a set of spreadsheets that detail the technology-specific areas and volumes for each SMA. The LWG appreciates this offer and respectfully requests copies of those spreadsheets. Also, on August 7, 2015, the LWG requested copies of the GIS files for the figures listed below or pdf versions with higher resolution:

- Figure 3.2-03\_PTW-Concentrations.pdf
- Figure 3.3-13\_SMAs\_REV 2.pdf
- Figure 3.3-20\_Surface-Subsurface-Sed-Ratios.pdf
- Figure 3.3-27a through f\_Matrix-Tech-Assign
- Figure 3.3-28\_Arkema-NAPL-PTW.pdf
- Figure 3.3-29\_Gasco\_NAPL-PTW.pdf
- Figure 3.6-02 through 07 Tech-Assign-AltB through F

We understand EPA may have made some changes to these figures since August, so it would be best if you can provide the latest versions.

Thanks,

Jim McKenna
